# Emergency Services

## **Nancy Lynch**

**Pet Safe Coalition, Inc.**

**Founded 1999**

Nancy Lynch has had a long career in the field of Emergency Services, primarily with the Nassau Chapter of the American Red Cross. She has been responsible for public relations for the Chapter and has served as its Chairman of Volunteers. She has learned from experience that the best way to maximize the chances of recovery is to make a plan and prepare ahead.

Pet Safe has the mission of helping pet owners keep pets safe in disasters. They publish a number of helpful guides for families which are available from the organization or online. They also offer temporary shelter support services in the event that established shelters are overwhelmed during disasters.
